Project Updates – Please send any updates via email

- Belmont Bridge
 - Design Public Hearing - Spring 2018
- West Main Street
 - Gearing up for stakeholder meetings, BAR, etc. in Feb/March. Exact dates TBD.
- TJPDC Regional Bike/Ped Plan
 - Jan. 17 Technical Advisory Committee Meeting
 - Any interest in a regular informal get together?
- Standards and Design Manual
 - Staff is reviewing draft SADM this month. Once it is reviewed, stakeholder meetings will be scheduled.
- Code Audit Update
 - No update since Dec. - The PC approved a temporary height definition based upon an average grade plane. They also modified some language so that buildings on water street still need to provide lower street walls on their other facades and to exempt non-conforming structures under BAR review from being forced to conform to massing regulations if altered (few buildings on the Mall conform and would have to be added onto or demolished significantly if altered under the previous ordinance). These still need to be approved by Council. The list of other items that need help is still extensive. The current hot topic is the definition of mixed use.
- SIA/Form Based Code
 - This project is on hold until a Housing Needs Assessment is completed and a a facilitator is hired to engage all of the public housing developments that are contained within the SIA.
- PLACE
 - Meeting on Feb. 8. Agenda not yet posted. There was a discussion of the Preston Avenue Corridor at the January Meeting
- BAR
 - Work session to discuss RRFBs – BAR is in favor of less sign clutter, better nighttime pedestrian lighting and in-ground signs for enhanced crossings.
