## ARCHITECTURAL DESCRIPTION

This late twentieth century one-story store building exhibits the Post-Modern style. Wall construction is of cinderblock, veneered with brick on the facade and on the foundation on the other elevations. The projecting parapet is faced with stucco. The side elevations are faced with stucco above the water table. This is continuous on the western elevation and broken into three large panels on the eastern elevation. The facade is three bays wide, with double doors in the central bay and multi-light display windows on the side bays. On the parapet above the central bay, there is a stepped central gable crowned by a sort of stuccoed doughnut, and a stepped pendant in low relief reaching downward toward the entrance. Two raised flower beds (empty) occupy the front yard.

## HISTORICAL DESCRIPTION

Roy C. Haney's used car lot occupied this lot in the 1960's and 1970's. He purchased the lot in 1975 (City DB 368-478, 634-605). After he moved his business several blocks west he replaced the small 1965 building that had served as its office with the present building in 1989. Three 19th century houses, two facing on West Main Street and one on Fifth Street, were demolished in 1965.
