Certificate of Appropriateness Application

BAR 23-12-02 625 West Main Street, TMP 320165100 West Main Street ADC District Owner: Paul's Rental Properties, LLC Applicant: Mariscos El Barco Project: Seasonal Tent (El Barco restaurant)

The CoA for the above referenced project was approved by the City of Charlottesville Board of Architectural Review on December 19, 2023. The following action was taken:

Motion to approve CoA by Mr. Schwarz. Zehmer second. Vote 7-0. Motion passed.

Having considered the standards set forth within the City Code, including ADC District Design Guidelines, I move the proposed seasonal tent at 625 West Main Street satisfies the BAR's criteria and is compatible with the West Main Street ADC District, and that the BAR approves the application as submitted with the following conditions:

- Installation is intended for seasonal use not to exceed a continuous six month period, provided the tent is not in place between June 1 and October 1 of each year.
- Tent is acceptable without side panels, but if used they must be entirely clear. [For ex, no faux windows or decorations.]
- Tent installation will not alter the landscaping or site features, nor be anchored to the historic structure.
- The tent roof will be a solid color, without any text, signage, or logos, and no commercial signage will be installed onto the tent or suspended from the tent frame. Colors other than white require BAR staff review.

For specifics of the discussion, the meeting video is on-line at: <u>All broadcasts for Charlottesville TV10 (boxcast.tv)</u>

Per the provisions of City Code Sec. 34-280: This CoA is valid for 18 months [from the date of BAR approval]; upon written request and for reasonable cause, the director of NDS or the BAR may extend that period by one year; and this CoA does not, in and of itself, authorize any work or activity that requires a building permit. (Link to Sec. 34-280: <u>CoA period of validity</u>)

If you have any questions, please contact Jeff Werner at <u>wernerjb@charlottesville.gov</u>.

Sincerely, Mollie Murphy

City of Charlottesville Board of Architectural Review Staff Report December 19, 2023

Certificate of Appropriateness Application

BAR 23-12-02 625 West Main Street, Tax Parcel 320165100 Owner: Paul's Rental Properties, LLC Applicant: Mariscos El Barco Project: Seasonal Tent at front patio (El Barco restaurant)

Background

Year built: 1935 (single-story service station), altered in 1970s *District*: West Main ADC District *Status*: Contributing

Originally a single-story service station (the *Albemarle Hotel Service Station*), between 1970 and 1981, the building was altered, and a second floor added. Note: this was a <u>non</u>-contributing property when the West Main Street ADC district was established in 1996, when the district was reviewed in 2013/2014 the property was designated contributing.

Prior BAR Reviews

[See Appendix for prior CoA requests for reviews of seasonal tents.]

<u>May 18, 2010</u> – BAR approved CoA to install three windows at the rear of the building and five on the east side to be replaced. The windows were aluminum frame and required to be white by the BAR.

<u>April 16, 2013</u> – BAR approved CoA for seasonal tent in the front patio. [At the time, the property was non-contributing.].

Application

CoA request to install an approximately 30-ft x 60-ft seasonal tent at the front patio area. Note: The applicant recently installed a tent at the front patio without BAR review, see photo in staff's attachment. This request is in response to that error.

Discussion and Recommendations

Staff Comments

Staff has attached information that might be helpful.

• Pages 1 and 2: Images of the property, including prior years, when a tent was allowed.

- Page 3: 2022 aerial image of the site, from City GIS
- Page 4: 1984 site plan of the site, from NDS files.
- Page 5: Sanborn Maps showing changes at site between 1891 and the 1960s.
- Page 6: Maps of the West Main ADC District, including the 2013/2024 revisions.
- Page 7: Relative to establish a precedent, there are 30 contributing properties within the West Main ADC District. Of these, 25 front on West Main Street, of which nine have space between the front façade and the public right of way in which a tent *might* be installed (including 625 West Main). (See page 7 of the staff attachment.)
 - 625 West Main: approx. 26-ft
 - 719 West Main: approx. 15-ft
 - 810 West Main: approx. 110-ft
 - 1001 West Main: approx. 28-ft
 - 1003 West Main: approx. 30-ft
 - 1018 West Main: approx. 16-ft
 - 1111 West Main: approx. 10-ft
 - 1209 West Main: approx. 10-ft
 - 1223 West Main: approx. 8-ft
- Page 8: Common tent options, features and components.

Staff Recommendation

The ADC District design guidelines (Chapter 5, Section G) *recommend tents are <u>not</u> appropriate in front of a contributing building*, which 625 West Main is. [This section was updated in 2013 specifically to address increased requests for seasonal tents.]

However, in an effort to support restaurants during the winter, the BAR may consider approval as a temporary, seasonal tent, with the following conditions of approval:

- Installation intended for seasonal use only, particularly for the winter and spring, therefore the CoA will expire six-months after approval.
- Tent installation will not alter the landscaping or site features, nor be anchored to the historic structure.
- The tent will be a solid color, without any text, signage, or logos, and no commercial signage will be installed onto the tent or suspended from the tent frame.

Note: In 2013, the City Attorney's Office advised that the BAR could stipulate, as a condition of approval, that a tent be allowed for seasonal use without annual re-approvals. The condition should establish the time period when the tent could be in-place, the color, size and placement [location] of the tent. And, if any circumstances changed, the applicant would have to return for re-approval. It was also suggested that these conditions—or the parameters—be adopted as a standard policy.

Additional, optional conditions.

- Locate tent in parking lot at side or rear.
- Allow installation of a smaller tent at the front patio. [Tents are typically sized in 20-ft increments.]

Additionally, the BAR should consider and, if a CoA is approved, incorporate the following into the conditions (See images on page 8 of the staff attachment.):

- Allow the installation of side panels, when, what types, etc.
- Allowing cover (top) panels that are clear.
- Allow non-fabric side panels.

Suggested Motion

Approval: Having considered the standards set forth within the City Code, including ADC District Design Guidelines, I move the proposed seasonal tent at 625 West Main Street satisfies the BAR's criteria and is compatible with the West Main Street ADC District, and that the BAR approves the application as submitted.

... as submitted with the following conditions [or modifications]: ...

Denial: Having considered the standards set forth within the City Code, including ADC District Design Guidelines, I move the proposed seasonal tent at 625 West Main Street does not satisfy the BAR's criteria and is not compatible with the West Main Street ADC District, and that for the following reasons the BAR denies the application as submitted: [...].

Criteria, Standards, and Guidelines

Review Criteria Generally

Sec. 34-284(b) of the City Code states that,

In considering a particular application the BAR shall approve the application unless it finds:

- (1) That the proposal does not meet specific standards set forth within this division or applicable provisions of the Design Guidelines established by the board pursuant to Sec.34-288(6); and
- (2) The proposal is incompatible with the historic, cultural or architectural character of the district in which the property is located or the protected property that is the subject of the application.

Standards for Review of Construction and Alterations include:

- 1) Whether the material, texture, color, height, scale, mass and placement of the proposed addition, modification or construction are visually and architecturally compatible with the site and the applicable design control district;
- 2) The harmony of the proposed change in terms of overall proportion and the size and placement of entrances, windows, awnings, exterior stairs and signs;
- 3) The Secretary of the Interior Standards for Rehabilitation set forth within the Code of Federal Regulations (36 C.F.R. §67.7(b)), as may be relevant;
- 4) The effect of the proposed change on the historic district neighborhood;
- 5) The impact of the proposed change on other protected features on the property, such as gardens, landscaping, fences, walls and walks;
- 6) Whether the proposed method of construction, renovation or restoration could have an adverse impact on the structure or site, or adjacent buildings or structures;
- 7) When reviewing any proposed sign as part of an application under consideration, the standards set forth within Article IX, sections 34-1020 et seq. (SIGNS) shall be applied; and
- 8) Any applicable provisions of the City's Design Guidelines.

Pertinent Design Guidelines for Signs Awnings Vending and Cafes

Link: Chapter 5 Signs, Awnings, Vending, and Cafes

G. Tents (Including Tent Canopies) for The Winter Cafe Season or Year-Round Use (Amended October 21, 2013)

- 1. Tents are generally not appropriate in historic districts that are primarily residential (North Downtown, Wertland Street, Ridge Street, Oakhurst-Gildersleeve, Rugby Road-Venable, most of Martha Jefferson).
- 2. Tents may be appropriate in [...] the West Main Street ADC districts [.]
- 3. Traditional solutions such as patio umbrellas and tree shade are encouraged.
- 4. Tents are not appropriate on the upper floors or roof of buildings.
- 5. Tents are not appropriate in front of a contributing building.
- 6. Tents may be appropriate in front of a non-contributing building, depending on the tent materials, and the impact of its footprint and massing on the streetscape and building.
- 7. Tents may be appropriate on the rear or side of a building.
- 8. Tents should not permanently alter significant landscaping or site features.
- 9. Tents should be a solid color, without any text or logos.

Condition: Good Threats to Resource: None Known Additions/Alterations Description: Projecting from the front elevation are two one-story additions with the character of glassed-in porches with wood-shingled hip roofs. These appear to be inserted in former garage bay openings. Number of Stories: 2.0 Interior Plan Type: Accessed? Interior Description: Relationship of Secondary Resources to Property:

DHR Historic Context: Commerce/Trade

Significance Statement:

Although it is not clear from the historical sources examined whether this building dates to 1946 or earlier, its form and detail suggest that it was built in the 1930s or 1940s. Sanborn maps for the period show a one-story auto sales, repair, and storage building being replaced by a one-story garage and filling station--the latter possibly incorporated into the present building. A 1947 business directory shows the Albemarle Hotel Service Station at 623-27 W. Main.

ARCHITECTURAL DESCRIPTION

off

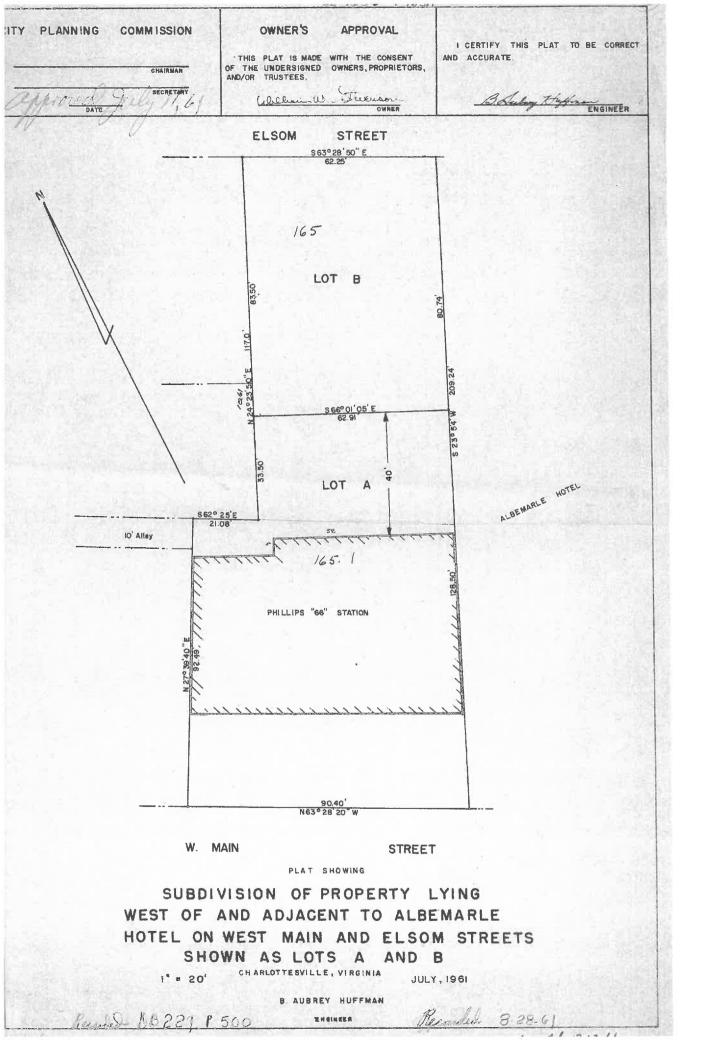

This automotive building has been completely remodeled for use as a restaurant and has had a second storey added for use as apartment? In its present form, it is two This stories tall and two bays wide. Wall construction is of brick, laid in 7-course American, bond in the original building and in stretcher bond in the second story addition. The walls are painted cream. Projecting brick piers divide the facade into two unequal bays. The wider western bay has been bumped out at the first story level. (The addition has a wooden shingled hipped roof with boxed cornice and plain frieze, and band of all tall single-paned windows extends all around the addition. In the eastern bay, a of the faces wooden-shingled, hipped-roof hood shelters an entrance door and two tall windows. At the new second story level of the facade are four single-light, double-sash windows with louvered shutters, evenly spaced across the facade without regard to the positions of the piers. A brick architrave marks of a plain frieze on the parapet. A central entrance with shingled hood on the eastern elevation provides access to the second story apartments. There are also three high windows at the first story level. FAII first story window openings on the rear and western elevations have been infilled. Second story windows on the rear and both side elevations are irregularly spaced and match those on the facade, except they lack shutters. The eastern portion of the building extends farther to the rear than the western portion. There is a small recessed entrance in the ell. A brick-walled brick terrance fills the front yard. Perennials and small evergreens are planted in the wall and along the foundation on the facade and eastern elevation.

HISTORICAL DESCRIPTION

This building is on the side of A. D. Payne's Livery Stable. Probably built before 1877, that imposing 2-story brick building was three bays wide with arched openings. Sometime between 1906 and 1920, the main building was replaced with a large brick building for automobile sales and repair. Dealers for such long-gone automobiles as Reo and Hudson occupied the building in the 1920's and early 1930's. The stable on the rear of the lot was retained. In 1925, W. A. Dinskud, and and an anticipation of the lot was retained.

the rear of the lot was retained. In 1935, W. A. Rinehart, acting as trustee for a group of investors, purchased the property (City DB 85-164) and replaced the existing buildings with the present one. It was used as a service station for nearly half a century before Charles W. Hurt, who had purchased it in 1970 (DB 321-269, 422-858 & 859) completely remodeled it and added a second story in 1981 at the time that the Hotel Albemarle next door was rehabilitated. Street 625 W. Main Street 625 ~~~

625 West Main Street (Sept 2022)

HISTORIC DISTRICT ORDINANCE: You can review the *Historical Preservation and Architectural Design Control Overlay Districts* regulations in the City of Charlottesville Zoning Ordinance starting with Section 34-271 online at **charlottesville.gov** or at Municode.com for the City of Charlottesville.

DESIGN REVIEW GUIDELINES: Please refer to the current ADC Districts Design Guidelines online at charlottesville.gov

SUBMITTAL REQUIREMENTS: The following information and exhibits shall be submitted along with each application for Certificate of Appropriateness, per Sec. 34-282 (d) in the City of Charlottesville Zoning Ordinance:

(1) Detailed and clear depictions of any proposed changes in the exterior features of the subject property;

(2) Photographs of the subject property and photographs of the buildings on contiguous properties;

(3) One set of samples to show the nature, texture and color of materials proposed;

(4) The history of an existing building or structure, if requested;

(5) For new construction and projects proposing expansion of the footprint of an existing building: a threedimensional model (in physical or digital form);

(6) In the case of a demolition request where structural integrity is at issue, the applicant shall provide a structural evaluation and cost estimates for rehabilitation, prepared by a professional engineer, unless waived by the BAR.

APPEALS: Following a denial the applicant, the director of neighborhood development services, or any aggrieved person may appeal the decision to the city council, by filing a written notice of appeal within ten (10) working days of the date of the decision. Per Sec. 34-286. - City council appeals, an applicant shall set forth, in writing, the grounds for an appeal, including the procedure(s) or standard(s) alleged to have been violated or misapplied by the BAR, and/or any additional information, factors or opinions he or she deems relevant to the application.

Deign guidelines re: tents

Chapter 5 Signs, Awnings, Vending, and Cafes

G. Tents (Including Tent Canopies) for the Winter Café Season or Year-Round Use

- 1. Tents are generally not appropriate in historic districts that are primarily residential (North Downtown, Wertland Street, Ridge Street, Oakhurst-Gildersleeve, Rugby Road-Venable, most of Martha Jefferson).
- 2. Tents may be appropriate in the Downtown, the Corner, and the West Main Street ADC districts, and in the mixed use/commercial areas of Martha Jefferson Conservation District, except tents are not appropriate on the Downtown mall portion of East and West Main Streets, including Central Place, and on the side streets leading to the mall.
- 3. Tents should not permanently alter significant landscaping or site features.
- 4. Tents should be a solid color, without any text or logos.
- 5. Tents may be appropriate on the upper floors or roof of buildings.
- 6. Tents may be appropriate on the rear or side of a building.
- 7. *If a tent would affect the front elevation of a building,* or the character of the property or district, then the guidelines for Additions in Chapter 3, *New Construction and Additions*, should be followed.

Chapter 3, New Construction and Additions

P. Additions

Many of the smaller commercial and other business buildings may be enlarged as development pressure increases in downtown Charlottesville and along West Main Street. These existing structures may be increased in size by constructing new additions on the rear or side or in some cases by carefully adding on extra levels above the current roof. The design of new additions on all elevations that are prominently visible should follow the guidelines for new construction as described earlier in this section. Several other considerations that are specific to new additions in the historic districts are listed below:

Function and Size

- 1. Attempt to accommodate needed functions within the existing structure without building an addition.
- 2. Limit the size of the addition so that it does not visually overpower the existing building.

Location

- 1. Attempt to locate the addition on rear or side elevations that are not visible from the street.
- 2. If additional floors are constructed on top of a building, set the addition back from the main façade so that its visual impact is minimized.
- 3. If the addition is located on a primary elevation facing the street or if a rear addition faces a street, parking area, or an important pedestrian route, the façade of the addition should be treated under the new construction guidelines.

Design

- 1. New additions should not destroy historic materials that characterize the property.
- 2. The new work should be differentiated from the old and should be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

Replication of Style

- 1. A new addition should not be an exact copy of the design of the existing historic building. The design of new additions can be compatible with and respectful of existing buildings without being a mimicry of their original design.
- 2. If the new addition appears to be part of the existing building, the integrity of the original historic design is compromised and the viewer is confused over what is historic and what is new.

Materials and Features

1. Use materials, windows, doors, architectural detailing, roofs, and colors that are compatible with historic buildings in the district.

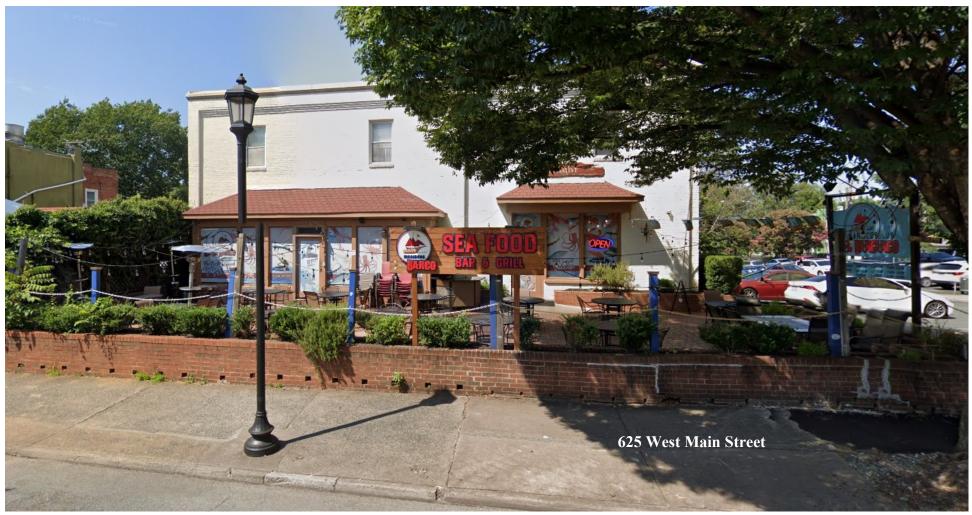

Attachment to Existing Building

- 1. Wherever possible, new additions or alterations to existing buildings should be done in such a manner that, if such additions or alterations were to be removed in the future, the essential form and integrity of the buildings would be unimpaired.
- 2. The new design should not use the same wall plane, roof line, or cornice line of the existing structure.
