Mary Joy,

Sorry for the confusion on this issue. I reviewed the available colors in the new line of shingles at the project site, and see two possible colors that could be equivalent replacements for the approved "Mystic Slate" color in the BAR package. I did not want to give the contractor the approval to order the material until we could verify that this was acceptable to the BAR and any other interested groups. Please see the attached pictures as well, which show the sample boards that are in the project trailer.

- 001 shows all three shingle sample boards sitting on the plan desk in the trailer
- 002 is the selected shingle in the BAR submission – "Mystic Slate" which has been discontinued
- 003 is one possible alternate – "English Gray Slate" (our preferred selection)
- 004 is the other possible alternate – "Antique Slate"
- 096 is a picture of the existing roof and the mountains beyond. As you can see, the existing roof is a very gray shingle.

As always, thank you for your time on this project. If you need any more information, or would like the contractor to deliver the actual shingle sample for your review, please do not hesitate to ask.

Regards,

Good Afternoon Mary Joy,

I was informed by Baskervill that you selected the shingles for the historic Patterson building at CFA. The manufacturer has discontinued the original line of roof shingles, and I need to figure out who approves a new color. The new shingle (Slateline) has all the same performance requirements as the previous shingle (Grand Slate). I have sample boards on site that I could bring by your office anytime.

Thank you for your time,

**Jason Whitlow**

Blue Slate

English Gray Slate

Emerald Green Slate

Victorian Red

Weathered Slate

Artique Slate

Because of the small size of these samples, the color clarity and variation of the actual color blends cannot be accurately shown. Before you order, please ask to see several full size shingles.
