Andy,  
The color you chose for the trim at 333 West Main Street, Benjamin Moore Deep Caviar, is appropriate. You may proceed.

Oh man I now want to talk water meter covers with you!

I just dropped off the swatch, and yes just the currently painted stuff (no brick). They said you are working from home, you picked a good day for it! It's cold!

Andy

So then I'm assuming you mean re-painting of the already painted trim, correct?  
I'm sure you know that painting unpainted brick is not permitted.  
You may submit a color chip to me for administrative approval; no application or fee required.

The Corner meeting was interesting and much needed! I told Doug Ehman the planters should match the ones on the mall.

The water meter covers probably will stay unless someone raises a real fuss. The BAR told PW that the proposed upgrades on the mall have to be cast iron.

It would be great if the Corner public improvements could be refurbished but it sounds like that cannot happen until utility work is done on W Main Street.
