

Keller suggestion: Designed landscape Study (How do we take care of this place.)

*Halprin Plan:*

Original design

What was built (and not built)

How has that been maintained

How has it been changed and/or altered from original design; from what was built

*Looking ahead (physical elements):*

Physical inventory/study of the mall and its components: furniture, lighting, bricks, fountains, trees, etc.

Guidance on maintaining, repairing and extending the mall

Plan for Parks and Rec to use when maintaining, repairing and extending the mall

*Looking ahead (community elements):*

Mall has been compartmentalized; examine impact of the private leasing of public space

Social segregation

Understand the *in between* spaces and/or places at the edges

*Historic Designation*

Revisit the mall's national register nomination

Concept of the mall as a designed place.

How do events of 2017 impact the mall's historic significance? (National Register Special Exception J)
